AD/O GGCarey: [redacted]

25X1

25X1 I called [redacted] regarding his draft memo for consideration by the NSCID 16 committee on December 3rd, and pointed out to him the bind we would put the DD/I in if the memorandum as written went to the Director without guidance, and that I felt 25X1 that in view of the tight space situation in the new building, plus the possibility that flow of Russian periodicals could be turned off at any moment, we would be making a mistake in increasing FDD's ceiling at this time and felt that the conclusion in paragraph 3f is the one which we should give the Director for guidance; [redacted]

25X1 [redacted] external contract plan. [redacted] assured me that he was well aware of this situation, and that his reasons for wording his memorandum to the Director as he did was because he felt that it was not the duty of the 16 committee to tell the Director how he should do anything and that he proposed to attach to the memorandum, after the committee approved it, the staff study written by Mr. Bagnall with, maybe, a few minor changes.

cc: Chief, FDD
